### The World's Favorite Food

According to information collected in 17 countries, pasta is what people like to eat most. Not only is pasta the number one food in its home country, Italy, but it is also enjoyed in distant places like the Philippines, Mexico and South Africa. Italy is the biggest pasta-eating community of the world. Italy is followed by Venezuela, then Tunisia.

Pasta has become popular because it is a low-cost meal and it is not difficult to prepare. Just cook spaghetti or other forms of pasta with tomato to go with it and you're finished. It tastes delicious and fills your stomach. It also produces energy, which is why athletes eat pasta.

Before it became popular in Italy during the 19th century, earlier civilizations ate some forms of pasta. People say that by the 13th century Marco Polo brought pasta to Italy from China, but this is not true. Arabs brought a noodle-like pasta to Sicily, an island in Italy, in the 8th century.

When many Italians immigrated to America in the 20th century, they took their eating habits with them, so pasta and pizza became popular. Although many people think of spaghetti as the most popular form of pasta, there are over 600 types and they are cooked in different ways. Pasta has simple ingredients, so it can be kept longer.

**Ejemplo:**

0. There are studies that show that pasta is

- A. everybody's favorite dish.
- B. eaten in few countries.
- C. liked in Italy.

Respuesta:

0.

A

B

C

#### Smiling Often

Smiling often has many benefits. People who smile regularly can experience an increase in their health and state of mind. Unfortunately, many people don't smile enough. It's a good idea to smile more often in order to feel better. Here are some reasons to smile more often.

Smiling brings health benefits. It increases natural substances in the body which improve your state of mind. Besides, smiling helps your facial structure give you a more youthful look; combined with healthy teeth, smiling can make you seem healthier and more attractive. Smiling also has positive effects on the immune and cardiovascular systems.

There are psychological benefits to smiling frequently, too. It makes you happy almost immediately. Sometimes when we can't smile, we find that anyone's smile helps us feel better. Smiling can also reduce stress levels since the body reacts quickly to it. A great way to make someone cheerful is to help them smile.

Smiling more often can also make you look more attractive and confident. In general, people like to show happiness and be near those who are happy. Smiling in the presence of others shows you are a happy person, and you can transmit the feeling to them. People are naturally attracted to smiling; therefore, smiling frequently can help you get the attention you want from others.

If you don't smile much, find ways to smile more often; try to make others smile more often too. Smiling is a fast way to feel happy. Feeling happy and making others feel happy is very positive and will bring many benefits. Although it seems difficult, it is in fact very easy; all it takes is moving some muscles and you will be happy almost immediately.
