

Lock me up 'cause I've been bad

And I know I'll do it again

You're the best I ever had

I'm guilty, I confess

Blue lights, red lights

We gon' get real wild tonight (come on)

Blue lights, red lights

With you (you, you, you)

Anything that feels this good

Well, it must be illegal, it must be illegal, illegal

Anything that feels this good

Well, it must be illegal, it must be illegal

So, call us criminals, criminals (criminals, criminals)

Call us criminals, criminals (criminals, criminals)

I've been stealing all your time

But I know that's what you want

I swear the way you blow my mind

Should be against the law

Blue lights (hey), red lights

We gon' get real wild tonight

Blue lights, red lights

With you (you, you, you)

Anything that feels this good

Well, it must be illegal, it must be illegal, illegal (hey)

Anything that feels this good

Well, it must be illegal, it must be illegal

So, call us criminals, criminals (criminals, criminals)

Call us criminals, criminals, baby (criminals, criminals)

Anything that feels this good must be illegal, illegal (oh, yeah)

Anything that feels this good must be illegal, illegal (come on, slay)

Blue lights, red lights

We gon' get real wild tonight (tonight)

Blue lights, red lights

With you

Anything that feels this good

Well, it must be illegal, it must be illegal, illegal (oh)

Anything that feels this good

Well, it must be illegal, it must be illegal

So, call us criminals, criminals, baby (anything that feels this good)

Call us criminals, criminals (must be illegal, illegal)

Anything that feels this good

(Must be illegal) well, it must be illegal, it must be illegal (illegal)
