

ACTIVITY 1 - 3 MIN CLASS DISCUSSION

Imagine you have to suggest transportation to tourists

1. How do tourists arrive to your city?
2. What is (for you) the best method of transportation for tourist in your city? Why?

COMPARISONS IN TOURISM

Read the following conversation at the travel agency.

(T = Travel Agent, C = Customer)

C: ...I've heard London has more interesting museums than Paris.

T: London is more expensive than Paris, but the flight to London is longer than the flight to Paris.

Would you consider other options, maybe taking a train or renting a car?

C: Sure. I imagine trains are slower than planes.

T: It depends on the place. Most train stations are closer to downtown than local airports.

If the adjective (describing word) is one syllable, you can add **-r/er/-ier+ than**

For example:

small - smaller; slow - slower;
nice - nicer; easy - easier.

With other English adjectives of two syllables and more, you can't change their endings. Instead, you should use more + adjective + than

For example:

interesting - more interesting;
beautiful - more beautiful;
expensive - more expensive.

ACTIVITY 2 - SPEAKING

With a partner, use the following information to create a conversation.

Philadelphia to Boston. June 8th.

	train	plane	bus
Price	from 32 usd	from 44 usd	from 40 usd
Time	8 hours	1.15 hours	7 hours
Distance (from downtown)	0.37 miles	4.8 miles	0.5 miles

You can also use:

The main square is (much) more interesting than here.

The dock is (a bit) – closer to the main square than the train station.

ACTIVITY 4 - ANSWERING FROM VIDEO

Answer these questions with a partner or team.

- 1.What are the key safety instructions that you should read at a tram stop before boarding?
- 2.Describe the process of tapping on and tapping off with your Mikey card while using the tram.
- 3.How can you find information about tram routes and schedules in Victoria?
- 4.Explain the significance of the yellow line at the tram platform and its purpose.
- 5.What options do you have for recharging your Mikey card, and how does using an Android phone enhance this experience?
