A teenager called Ned Aufenast **(A1) ...** up with an impressive way of getting about. It is a bicycle with a sail and it's quite a dramatic sight as Ned **(A2) ...** it through the traffic near his home. Initially, he wasn't sure if he should ride it on the road but, once he **(A3) ...** it independent brakes, lights and reflectors, he **(A4) ...** permission to ride it anywhere except on the motorways, where he would be doing so illegally. Ned says his inspiration **(A5) ...** one day when he was riding his bicycle. It was a real struggle because of the strength of the wind. He's always been passionate about sailing and thought it might be fun to use wind power on the road. He says: 'You just pedal and the wind helps you to go faster.' Although not essential, his knowledge of sailing was very helpful when he **(A6) ...** the bike. Just then he heard of a Dutch company that had already started production of something similar called the 'whike'. Ned **(A7) ...** them now to make versions based on his own design.

A1.
1) will have come 2) has come 3) will come 4) had been coming

A2.
1) rides 2) is ridden 3) has ridden 4) was riding

A3.
1) was giving 2) has been given 3) was given 4) had given

A4.
1) gave 2) has given 3) was given 4) is giving

A5.
1) has come 2) came 3) was coming 4) had come

A6.
1) was designed 2) has designed 3) was designing 4) had been designed

A7.
1) is helping 2) is helped 3) was helped 4) had been helped
