### FREE TIME & HOBBIES

**FUMIKO**

I have to study really hard for school. That means I haven't got much free time for hobbies. When I can, I enjoy reading manga comics. I also love singing and I listen to music on my way to school. I only watch TV when there are interesting programmes on. I think sport is also very important if you want to be healthy so I also play tennis once a week. At weekends, I sometimes invite my friends to my home or I go to theirs: we really like making cakes together.

**ANTON**

I like doing a few things in my free time. I don't think my hobbies are that different from the ones other boys or girls have, though. I don't mind chatting online but I prefer watching TV series. I don't often read because it's boring.

I love watching football on TV but I don't do much sport at the moment. I think I might start swimming again. My mum says young people should do exercise to keep fit.

**GARY**

In my free time, I like doing things that nobody else my age does. I love food so I spend most weekends cooking with my grandmother. I also like walking in the countryside by myself and taking photos. I don't have a smartphone so I can only call my friends. I think most TV is awful, so I never watch it. In my opinion, there are better ways to spend your free time!

**PART 3: Question 14-18**

For each question, choose the correct answer.

**A VISIT TO FLORENCE** - *by Jamal Mohamed, age 12*

I often travel abroad with my parents. They're both painters so they really enjoy visiting museums all over the world. Last summer we went to Italy. We visited a lot of beautiful cities but the one I liked best was Florence. The lady who took us sightseeing was my father's art teacher. She's lived in Florence for over 30 years so she knows a lot of interesting facts about the city.

Florence has a lot of things to see. On the first day we went to the Uffizi Museum. There were a lot of beautiful paintings, but I was a bit frightened when I saw Caravaggio's Medusa. This painting shows the head of a woman whose hair is actually snakes! My little brother started crying when he saw it, so we had to leave the room!

We spent the next three days walking around the town. Fortunately, it was sunny all the time, so we visited several wonderful buildings in the city centre and had a nice walk along the Arno river. There are a lot of nice bridges, but one of the oldest ones, Ponte Vecchio, is amazing because it's got real shops on it.

I never thought I would find Florence so interesting. It's a shame we only stayed there for four days, so we weren't able to see that much. However, my parents have decided we'll go back. We're going to spend a few weeks there next time so we'll have time to visit what we missed.

**14. Why did Jamal's parents decide to visit Italy?**

A. They wanted to visit beautiful cities.

B. They are interested in art.

**15. Why did Jamal and his family leave the Uffizi Museum?**

A. Jamal was frightened by a picture.

B. Jamal's little brother was upset.

**16. What did Jamal and his family do in the following days?**

A. They went sightseeing.

B. They went shopping.

**17. Why is Ponte Vecchio so special?**

A. Because it has buildings on it.

B. Because it's more beautiful than the other bridges.

**18. What does Jamal say about his trip?**

A. He thought it was a bit boring.

B. He is sorry that it was so short.
