Treasure Surprise

No one ever likes weeding, but in 2019, Jamie Clark, a retired bank teller, got a nice surprise when he accidentally found a bottle full of 14th-century coins while removing the weeds in his garden. Fifty-six gold coins and five silver coins were uncovered in the garden in Sunrise City, Eagle State. There are six coins specially having the initial letters in Great Henry's name on it, which made the coins more valuable. ---[1]---

It is undoubted that in the 14th century, these coins were a huge amount of money. Indeed, it had the value of \$30, which is approximately equal to \$16,000 today. ---[2]---

There have been some speculations about who buried the coins. The most convincing explanation is that a merchant, who just migrated from England, might have hidden it for emergency fund. ---[3]---

Flamingo Accessories has its logo changed

Swiss-based Flamingo Accessories was forced to change its logo on handbags and backpacks due to concerns raised by its target market, Chinese customers. The logo featured four red dots, a design that carries negative connotations in Chinese culture. ---[1]--- The firm management was surprised by the huge volume of disapprovals they received from customers. The logo's author, Alice Stellar, was particularly shocked. She said the four dots mean the goals of the corporation: innovation, reliability, responsibility, and integrity. ---[2]--- The dots are put in the shape of a square, indicating the fulfilment and circulation in life.

Alice and her team are working on the new logo. Another red dot will be added to the center of the square. Hopefully the number of customers, especially those from China, will jump as in Chinese, 'five' sounds like 'wu', the five elements of the Earth.

---[3]--- Some customers are uncertain about whether the four-dot logo could potentially bring bad luck. ---[4]--- According to a loyal customer named Daniel Xi, superstitions seem a bit outdated in this day and age, with no clear logical basis behind them. She shared, "There is no logic behind them." However, she did admit that she shared the concerns of other customers and was happier that the updated logo has an extra dot. Bering Developments Get the Go-Ahead

Re-zoning application approved despite concerns

— BILL GERARD, HALIFAX GAZETTE, NOVA SCOTIA

The re-zoning application submitted nearly two years ago by Bering Developments was finally approved by the city's planning committee on Wednesday night, despite opposition from local residents. ---[1]--- The plan to convert the Southgate Hotel in Haringsford into a 120-bed long-term care facility looks set to go ahead.

The development has been a source of controversy and delays for years. It was moved to Haringsford after original plans for the development to be placed in Queens at the site of the former Hope Hospital fell through. The reason for rejection at the time was concerns among local residents that the 8-story assisted living building would negatively impact on the character of the area. ---[2]--- The project's architect, Luke Benedict, said a number of modifications had been made to the design, and insisted it was in keeping with the new location. He also brushed aside worries about flooding, saying improved drainage at the site would minimize any impact.

Residents in Haringsford say they are not satisfied that their concerns have been addressed. ---[3]--- However, project supervisor for developers PTY Construction Peter Smith insisted "We have been asked to complete the project by December of next year. We can only do this by working up until 8:00 P.M. and on Saturdays also". Permission was denied for an appeal to be lodged by the Residents Action Committee. Organizer Pat Johnson said, "We don't know how the city council has been persuaded by Bering Developments to withdraw its opposition to the plan, but we intend to find out. Re: Order #93887

Dear Ms. Tran:

Thank you for contacting Shoppe des Jeans Customer Care about order #93887. I am sorry you are not happy with your purchase. — [1] —. The product you ordered, Women's Stretch Jeans size 36 in midnight blue, is one of our best-selling women's styles. In order to get the dark blue color that makes these jeans such a standout, the fabric is dyed twice to deepen the color of the denim. — [2] —. The item's label clearly states that some dye may rub off on light-colored fabric or upholstery until the product has been washed several times. — [3] —. It also suggests washing the jeans with dark colors only, as the dye may run in the wash.

It is unfortunate that you did not see these warnings and that your sofa has become discolored as a result. — [4] —. Our goal at Shoppe des Jeans is 100% customer satisfaction with every purchase. This kind of situation, however, is not covered under our customer service guarantee, since the issue with the dye is addressed on the product's label. I suggest you try treating the sofa with baking soda, followed by upholstery cleaner.

Kiame Tire Factory Productivity Report

Preparer: Wilma Najjar, Systems Engineer

Date of review: April 10

Reason for review: Quarterly inspection

Summary: I have completed my inspection of all equipment and machinery at the plant. — [1] —. The main components of the production line are running as expected. These components include mixers, rollers, and the textile production system. — [2] —. The rotating drums for assembling the tires that were added last quarter have also been functioning as expected. Finally, the molds for the tire treads are beginning to show some signs of wear. Employees have flagged these molds, and the molds will be removed from the production line.

Recommendations: Purchasing new replacement molds is the top priority. See the report in the section dedicated to tire molds for details. — [3] —. Finally, as the Kiame plant increases its production, adding more mixers will be crucial to making more tires. The company must decide at that point whether to purchase newer mixer models or to upgrade those that we are currently using. — [4] —. However, replacing the older mixers will speed up production, which will likely outweigh any additional cost.

 - (B) To document findings of a factory inspection

- (A) There is a separate section about them in the report.

174. What is indicated about the Kiame Tire Factory?
- (A) Most of its equipment is old.
 - (B) It is less expensive to maintain than anticipated.
 - (C) It is likely to grow in the future.
 - (D) It has recently lost several employees.
175. In which of the positions marked [1], [2], [3], and [4] does the following sentence best belong?
- "Of course, replacing existing models would be more costly."
- (A) [1]
