Question: *How would you think the modern technology will change the workplace in the next 100 years?*

are going to feel	are likely to lead to	will have
will find	is likely to become	will develop
are predicted to work	are likely to occur	will be
will continue	are going to happen	will result

Sample answer:

Thanks to modern technology, there have been enormous changes in the workplace over the past 100 years.

So now let us consider the changes that (1)..... in the next 100 years. Unfortunately, I believe that not all changes (2)..... for the better.

For example, more people (3)..... from home and so they(4)..... more isolated from their colleagues. On the other hand they(5) greater freedom to choose their working hours.

A further possible change is that handwriting (6)..... obsolete. We are already so used to using a keyboard that today's children are losing the ability to spell without the aid of a wordprocessor. Without a doubt, even greater changes (7)..... in technology used in the workplace. Computers (8)..... to grow even more powerful and this (9)..... in an even faster pace of life than we have now. Let us hope that our employers (10).... way to reduce the stress on worker's this fast pace can bring. I also think these improvements in technology (11).... even more globalization than now and companies (12).... very strong international links.
