# GE7 UNIT 3 WHAT WE WEAR, WHAT WE WASTE 7

1. **Read and complete the text with the suitable words:**

Many people love shopping for new clothes. They like to _____ on stylish jeans or _____ on new shoes. Some even_____ up for small occasions just to look good. However, not everyone realizes how much damage the fashion _____ causes to the planet. A lot of clothes are _____from materials that produce huge amounts of _____ dioxide during manufacturing, which adds to water and air _____and _____ change.

We _____ to think carefully before buying too many clothes. You don't _____ to follow every new trend to look great. In fact, old clothes often look great _____ people if they're combined with the right accessories that go well _____ their outfits. We ought to get rid_____ items we no longer wear by donating them instead of throwing them away, because that reduces waste.

Clothes should be _____ from more sustainable fabrics like organic cotton or recycled fibers. Factories must _____ monitored to make sure less water and fewer chemicals _____ **used**. If this doesn't happen, the _____ damage might become impossible to fix.

At home, people can also help. You don't need _____ wash your clothes too often, and when you do, you should _____ up and _____away clean clothes properly. Jackets and shirts should be hung _____. When clothes wear out, they _____be recycled instead of burned or thrown in the trash.

Next time you buy something, think about how it's produced. Ask yourself if you really need it, if it's made of good quality, and if you can _____ for it without wasting money. A small change in the way we shop can reduce carbon _____ and protect the planet. Fashion can still be fun — but it _____be responsible too.
