What's your score?

How to score:

1 point for **never** 2 points for **sometimes** 3 points for **often**

Is your score between 6 and 9? You are living life in the slow lane. Compared to most people, you take things easy and don't get stressed by modern-day living. You are patient, relaxed, and easy-going. Most of the time this is good news, but sometimes it can be a problem. For example, are you sometimes late for appointments?

Is your score between 10 and 14? You have a medium pace of life. You are probably somebody who can change the speed at which you live depending on the situation.

Is your score between 15 and 18? You are living life in the fast lane, rushing around and trying to do many different activities and projects at the same time. You are impatient and you find it difficult to relax. You are probably very productive, but your relationships and health could suffer as a result.

I WANT IT AND I WANT IT NOW! Why are we so impatient?

Whatever happened to patience?

We don't like waiting for things anymore. With faster broadband, instant searches, and immediate downloads, we expect things to happen immediately, and if they don't we get impatient.

Fast food restaurants have changed the way we eat. The growth of mobile phone apps like Tinder has changed the way we meet new people. We don't need to wait a week to see the next episode of a TV series – we can download it on Netflix. We are even walking 10% faster than 20 years ago, and talking more quickly. Everything is getting faster, but is it getting better? That depends on how fast you like to live.
