Teenagers and Free Time

Teenagers have a lot of free time after school, and they can choose from many activities to enjoy. Some teenagers like to spend time with their friends, while others prefer to relax by themselves.

One popular activity among teenagers is using screens. Many of them spend a significant amount of time in front of screens, whether it's watching movies, playing video games, or scrolling through social media. While these activities can be entertaining, it's important for teenagers to find a balance between screen time and other hobbies.

In addition to using screens, teenagers have various interests. Many enjoy playing sports like football or basketball, which help them stay active and healthy. Others might prefer quieter activities such as reading books or drawing. Music is also a big part of their lives; some play instruments, while others love listening to their favourite songs.

Spending time outdoors is another excellent way for teenagers to unwind. They can go for walks, ride bikes, or hang out in parks with friends. Being outside can be refreshing and fun.

In conclusion, teenagers have many options for how to spend their free time. While screens are popular, it's essential for them to explore different activities and enjoy life beyond the digital world!

a) **Multiple Choice:**

What do many teenagers enjoy doing in their free time?

A) Spending all their time alone

B) Using screens, playing sports, and listening to music

C) Only watching movies

Water Safety: Important Tips for Everyone

Water is a wonderful part of our lives. We swim, play, and have fun in it, but we must also be careful. Knowing how to stay safe around water is very important for everyone, especially for children.

Always Swim with an Grownup

One of the most important rules is to always swim with an _____. If you are at the beach or a pool, make sure that a parent or a lifeguard is watching you. They can help if something goes wrong.

Learn to Swim

Learning to swim is a great way to stay _____ in the water. Swimming lessons can teach you how to float, dive, and swim back to the shore if you get tired. Many schools offer swimming classes, so ask your teacher if you can join one!

Use Life Jackets

LIVEWORKSHEETS

If you are on a boat or near deep water, wearing a life jacket is very _____. Life jackets help keep you safe and can save your life if you fall into the water. Always choose a life jacket that fits you well.

Be Aware of Your Surroundings

When you are near water, pay attention to your _____. Look out for signs that warn you about strong currents or deep areas. If you are at the beach, watch for flags that tell you if it is safe to swim.

Stay Calm in Emergencies

If you find yourself in trouble in the water, try to stay _____. Panic can make things worse. If you are struggling, float on your back and call for help. Remember, it's okay to ask for help when you need it.

Water safety is very important for everyone. By following these simple tips—swimming with an adult, learning to swim, wearing life jackets, being aware of your surroundings, and staying calm—you can enjoy the water safely. Let's have fun and stay safe!
