

## Dictation

Listen and fill in the gaps with the words you hear.

Penguins are a type of bird, and they are found in Antarctica, South America, \_\_\_\_\_ South Africa. There are 17 different types of penguins \_\_\_\_\_ each kind lives in large groups. The largest penguin is the Emperor Penguin. Penguins are birds \_\_\_\_\_ they can't fly. They spend more of their time swimming. They eat fish \_\_\_\_\_ they can swim for hundreds of kilometers to look for food. Penguins sleep for a few minutes at a time, at any time of the day \_\_\_\_\_ night. They stand up \_\_\_\_\_ they sit down to sleep. Penguins are black \_\_\_\_\_ white. These are good colors \_\_\_\_\_ they keep the penguins safe. Their backs are dark like the sea \_\_\_\_\_ so when they're swimming it's hard to see them from the air. The front of the penguin's body is white like ice so no hungry animal can see it from under the water.
