7	Peacock	g	Goose
8	Fox	h	Sow
9	Gander	i	Bitch
10	Boar	j	Lioness

KNOW MORE

Seahorses are monogamous and mate for life. Rarer still, they are among the only animal species on earth in which the male bears the unborn young. The male seahorse carries the eggs in his pouch until they hatch, then releases fully formed, miniature seahorses into the water. As little as 5 or as many as 1,500 young ones can be born.
