

Name: _____

Surname: _____

Theme: Environmental problems

Task 1: Open-Ended Question

Answer the following question in 3-5 sentences:

What are the most pressing environmental problems mentioned in the article, and how do they impact global ecosystems?

Task 2: Short Answer

Provide brief answers to the following questions:

1. What is the primary cause of deforestation according to the article?
2. How does plastic pollution affect marine life?
3. Name two consequences of climate change mentioned in the article.

Task 3: Drag and Drop

Complete the following sentences by dragging the correct words into the gaps:

1. Deforestation leads to the loss of _____ and contributes to climate change.
(Options: biodiversity, fossil fuels, urbanization)
2. Air pollution is primarily caused by _____ and industrial emissions.
(Options: vehicle exhaust, deforestation, overfishing)
3. Overfishing disrupts marine _____ and threatens food security.
(Options: ecosystems, economies, industries)

Task 4: Matching

Match the environmental issue with its corresponding impact:

Environmental Issue Impact

- | | |
|----------------------|---|
| 1. Climate Change | A. Rising sea levels and extreme weather events |
| 2. Plastic Pollution | B. Harm to marine life and ecosystems |
| 3. Deforestation | C. Loss of habitat and increased carbon emissions |
| 4. Air Pollution | D. Respiratory diseases and reduced air quality |

Task 5: Choose the Correct Word/Phrase

Select the correct word or phrase to complete the sentences:

1. The greenhouse effect is caused by the accumulation of _____ in the atmosphere.
a) oxygen
b) carbon dioxide
c) nitrogen
2. Sustainable practices aim to reduce _____ on natural resources.

- a) dependence
- b) independence
- c) indifference

3.The ozone layer protects the Earth from harmful _____.

- a) UV rays
- b) carbon emissions
- c) plastic waste

Task 6: Multiple Choice (Single Correct Answer)

Choose the best answer:

1.What is the main cause of ocean acidification?

- a) Plastic waste
- b) Increased carbon dioxide levels
- c) Overfishing

2.Which of the following is NOT a renewable energy source?

- a) Solar power
- b) Wind energy
- c) Coal

Task 7: Multiple Choice (Multiple Correct Answers)

Select all the correct answers:

1.Which of the following are consequences of deforestation?

- a) Loss of biodiversity
- b) Increased carbon emissions
- c) Improved air quality
- d) Soil erosion

2.What are some solutions to reduce plastic pollution?

- a) Banning single-use plastics
- b) Increasing plastic production
- c) Promoting recycling programs
- d) Encouraging the use of biodegradable materials
