

**Título:** *The Seven Continents*

**Texto:**

The world has seven continents: Africa, Asia, Europe, North America, South America, Australia, and Antarctica. Each continent is different and has its own cultures, climates, and animals.

Asia is the largest continent, while Australia is the smallest. Africa is known for its deserts and wild animals. Europe has many famous cities and historic places. North America and South America are connected but have different landscapes and languages. Antarctica is very cold and covered in ice.

Learning about the continents helps us understand the world we live in.
