NAME: _____

USE OF ENGLISH PART 3

Read the text and use the word given to form a word that fits in the gap.

Education Around the World

Students are often surprised by how different school systems can be. One of the most **(0) SURPRISE →SURPRISING** facts is that not all countries start the school day at the same time. In some places, a later **(1) BEGIN →** _____ is considered better for students' health because it improves their level of **(2) AWARE →** _____ about sleep habits.

In Finland, a country famous for its educational success, teachers spend less time in the classroom, but their **(3) PREPARE →** _____ is extremely detailed. This allows them to create more creative lessons and support every student's **(4) DEVELOP →** _____.

Meanwhile, in Japan, students help clean their classrooms every day. This tradition teaches **(5) RESPONSIBLE →** _____ and teamwork. Many visitors say this creates a strong sense of **(6) CONNECT →** _____ within the school.

In some African countries, students walk long distances to attend school. Their **(7) DETERMINE →** _____ to learn is inspiring, especially when we think about the **(8) DIFFICULT →** _____ they face, like extreme heat or a lack of electricity.

Technology is also changing education everywhere. Online platforms provide **(9) INCLUDE →** _____ opportunities for students who cannot attend school daily. In addition, **(10) INNOVATE →** _____ tools such as educational games are increasing student **(11) MOTIVATE →** _____and helping them practise new skills.

Overall, these examples show that education is constantly evolving, and every system has something **(12) VALUE →** _____ to offer.
