

Part 3 - Read the text then answer the questions: -

The city is a busy place where many people live. Some streets are quiet, while others are crowded with traffic and tall skyscrapers. Leo lives in an apartment building near the library. Every morning, he can see people walking to the school, workers going to the hospital, and families visiting the market.

On weekends, Leo likes to go to the park with his cousin. The park is his favorite place because it is quiet, green, and full of animals like birds and butterflies. Sometimes, he wonders where the new museum will be, because his teacher said that the city will build one soon.

When he visits the countryside village, Leo sees tractors and farms, but he thinks the city is more exciting because there is always something new to see—like the fire station, the mosque, or the busy market.

A - Complete the sentences by choosing the correct words from the text bank. There are two words you do not need:-

park – library – market – hospital

1. Leo lives near the _____, so he can visit it anytime.
