

VOLCANIC RIDDLES

1. I am a hole at the top of a volcano where lava shoots out.

What am I? _____

2. I am the hot, melted rock inside the Earth. When I come out, I change my name. What am I? _____

3. I am the path that magma uses to travel up the volcano to the top. What am I called? _____

4. I am smoke, gas, and tiny bits of rock that shoot into the air when a volcano erupts. What am I?

5. I'm the pool of melted rock deep under the volcano, waiting to erupt. What am I? _____

6. I'm a tiny crack on the side of a volcano where small amounts of lava can escape. Who am I? _____

7. I am the type of volcano that hasn't erupted for a very long time, but could erupt again someday. What am I? _____

8. I am the runny, melted rock that flows out of a volcano after an eruption. What am I? _____

9. I am the melted rock that reaches the Earth's surface and cools to form new land. What am I?
10. I am the volcano that is currently erupting or showing signs that it might erupt soon. What am I? _____
11. I am the volcano that is not expected to ever erupt again. What am I? _____
12. I am the shaking of the ground that often happens before a volcano erupts. What am I? _____
