

## Reading: The Water Cycle

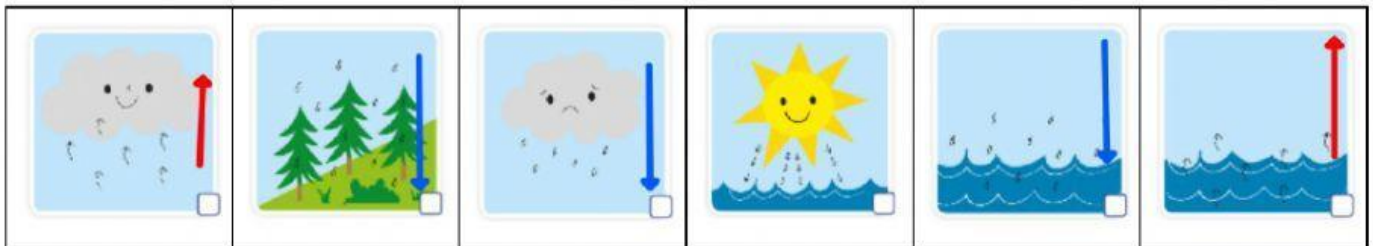

### A. Select the correct words in the labels.

### B. What happens first? Write the numbers.

- ..... The rain falls into the ocean, and the cycle starts again.
- ..... The vapor changes and becomes a cloud.
- 1** ..... The sun makes the water in the ocean hot.
- ..... The rain falls onto the earth, trees, and grass.
- ..... The water in the ocean goes up into the air and becomes vapor.
- ..... Water vapor makes the cloud heavy, and it starts to rain.

### Drag and drop the pictures in order.
