

Unit 2 6º 2025-26

Reading STANDARD

3 Read the questions and circle *True* or *False*.

Bangladesh

Bangladesh is one of the wettest countries on Earth. From November to May, it's quite dry, but from June until October, there is water everywhere. They can't walk into town because the water is too deep, so they can't go to their school in town. During these months, children go to school on boats on the river. There can be groups of 30 students in lessons on the boat. They don't wear uniforms. Today, the library boat is waiting for them on the river. It's a bigger boat than their usual classroom boat. It has hundreds of books and it has computers, too. The students have ICT on the library boat. They also have break on the boat. The students chat and play games at break. They can't play basketball!
