II Read the passage and choose the correct answers.

In the rapidly evolving job market, certain fields are expected to thrive due to technological advancements and societal needs. One such field is personalized healthcare, where professionals like skincare specialists and psychologists will play **crucial** roles. These experts will use advanced research and innovative techniques to cater to individual needs, ensuring better outcomes for their clients.

Another promising area is skilled trades, which means there is a growing demand for qualified workers in various hands-on professions. For instance, becoming a mechanic now often involves understanding complex computer systems in vehicles. Apprenticeships in this field provide hands-on experience and are essential for mastering the skills required.

Education is also transforming with the rise of virtual learning environments. Tutors who can offer personalized education through online platforms will be in high demand. This approach allows students to receive tailored instruction that caters to their specific learning styles and needs.

Overall, the jobs of the future will require a blend of traditional skills and new innovations. Professionals must be adaptable and willing to continue learning to stay relevant in their chosen fields.

1. What is the main idea of the passage?

- A. The decline of traditional jobs
- B. The importance of personalized healthcare in the future
- C. The evolution of jobs due to technological advancements
- D. The necessity of higher education for all future jobs

2. The word "**crucial**" in paragraph 1 is closest in meaning to _____.

- | | | | |
|-------------|--------------|---------------|----------|
| A. optional | B. important | C. irrelevant | D. minor |
|-------------|--------------|---------------|----------|

3. What is necessary for mastering skills in skilled trades like becoming a mechanic?
- A. Attending university B. Working as a tutor
C. Doing research D. Participating in apprenticeships
4. Why will tutors who offer personalized education be in high demand?
- A. They can provide instruction tailored to individual needs.
B. They can teach multiple subjects.
C. They can work in traditional classrooms.
D. They require minimal training.
5. What quality must future professionals possess to stay relevant in their fields?
- A. The ability to conduct research B. A willingness to continue learning
C. Expertise in computer systems D. Strong physical skills
