## Reading part 5

For each question, choose the correct answer.

### Teenage Teachers

People may think teenagers are too young to be in charge of a class when they're still students themselves, but that's not true. Sixteen-year-olds are 21 \_\_\_\_\_ teaching lessons to primary school children in a new government scheme which allows school leavers to 22 \_\_\_\_\_ as teaching assistants in primary schools.

New rules were recently introduced which have allowed all primary school teachers to have more time during the school day for 23 \_\_\_\_\_ lessons, but this sometimes means that teachers have less time for teaching. Now teenagers fill the gap. They take a two-year course, starting when they're 14. When they enter the classroom as teachers 24 \_\_\_\_\_ than students, they have to quickly put into practice the skills they learned 25 \_\_\_\_\_ they were studying.

The government believes that about 18,000 teenagers could get jobs in this 26 \_\_\_\_\_. However, many people believe that young teenagers will not make suitable teachers.
