Latihan Soal Pecahan

Kerjakan soal pecahan berikut ini!

1

$$\frac{1}{4}$$

6

$$\frac{\dots}{\dots}$$

2

$$\frac{\dots}{\dots}$$

7

$$\frac{\dots}{\dots}$$

3

$$\frac{\dots}{\dots}$$

8

$$\frac{\dots}{\dots}$$

4

$$\frac{\dots}{\dots}$$

9

$$\frac{\dots}{\dots}$$

5

$$\frac{\dots}{\dots}$$

10

$$\frac{\dots}{\dots}$$

Kelas :

Mengubah Pecahan Menjadi Bilangan Desimal

Ubahlah pecahan berikut menjadi bilangan desimal dan sebaliknya persepuluh atau perseratus dengan tepat!

$\frac{1}{10} = 0,1$	$\frac{2}{100} = 0,02$	$\frac{35}{10} = 3,5$	$\frac{35}{100} = 0,35$
----------------------	------------------------	-----------------------	-------------------------

$$\frac{3}{10} = \boxed{}$$

$$0,7 = \frac{\boxed{}}{\boxed{}}$$

$$\frac{75}{10} = \boxed{}$$

$$9,4 = \frac{\boxed{}}{\boxed{}}$$

$$\frac{60}{100} = \boxed{}$$

$$0,37 = \frac{\boxed{}}{\boxed{}}$$

$$\frac{88}{10} = \boxed{}$$

$$1,25 = \frac{\boxed{}}{\boxed{}}$$
