

REPORT

The purpose of report text is _____

Parts of the text:

1. _____
2. _____

Camel is a large and strong animal which is commonly seen in desert. There are two kinds of camel; Arabian camel and Bactrian camel. The first kind of camel has one hump and the second has two humps.

Camels are able to travel in great distances across hot and dry deserts with little food or water. They walk easily on the desert. Camels are trained as a means of transportation by carrying people and loads on their backs. They also serve the people of the desert in many other ways.

1. What is the text about?
 - A. Camel
 - B. Bactrian camel
