READING TEXT

The Future of Transportation

In the future, people will travel in faster and safer ways. Cars will be electric, and many of them will drive by themselves. Buses and trains will use clean energy, and cities will have more bike lanes so people can move easily. Some countries will even use flying taxis for short distances. Traveling will become more comfortable, and it will help protect the environment.

📝 MULTIPLE CHOICE

1. How will cars be in the future?
a) Gas-powered
b) Electric
c) Broken

2. What will cities have more of?
a) Factories
b) Bike lanes
c) Stadiums

LIVEWORKSHEETS
