Our Family's Friendship Day

Hi! I'm Mateo, and I want to tell you about a new celebration in my family. We call it Friendship Day, and it's on July 20th. It's not an official holiday in Peru, but we celebrate it every year.

In the morning, my mom and I are going to bake chocolate cupcakes. My dad is going to prepare sandwiches, and my sister is going to make lemonade. In the afternoon, we are going to visit my grandparents and share our food with them. Then, we are going to go to the park with our friends. We are going to play football and listen to music.

At night, we are going to write little notes to thank our friends for being kind and helpful. I love this celebration because it helps us remember how important friendship is.
