

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$5 + 6 = \square$$
$$10 + \square = \square$$

$$5 + 6 = \square$$
$$+ 10 = \square$$

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$4 + 8 = \square$$

Diagram illustrating the addition of 4 and 8 using a tree structure. The root node is a red circle with a plus sign. It has two blue children. The left child is a blue circle with the number 10 written in red. The right child is a blue circle. Below the tree is the equation  $10 + =$  followed by a blue circle.

$$4 + 8 = \square$$

Diagram illustrating the addition of 4 and 8 using a tree structure. The root node is a blue circle. It has two blue children. The left child has one blue child, which in turn has one blue child below it. The right child has one blue child, which in turn has one blue child below it. Below the tree is the equation  $+ 10 =$  followed by a blue circle.

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$9 + 7 = \square$$
$$10 + \square = \square$$

$$9 + 7 = \square$$
$$+ \quad 10 = \square$$

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$7 + 6 = \square$$
$$10 + \square = \square$$

$$7 + 6 = \square$$
$$+ 10 = \square$$

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$8 + 4 = \square$$
$$10 + \square = \square$$

$$8 + 4 = \square$$
$$+ \quad 10 = \square$$

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$3 + 9 = \square$$
$$10 + \square = \square$$

$$3 + 9 = \square$$
$$+ 10 = \square$$

# Eseguo i seguenti calcoli

oooooo oooooo oooooo oooooo

$$5 + 6 = \square$$
$$10 + \square = \square$$

$$5 + 6 = \square$$
$$+ 10 = \square$$
