

Making Smart Money Choices

B Choose the correct option to fill in the blanks.

Managing money wisely can make a big difference in your daily life. Many people spend without thinking, but your financial future can change if you make smart decisions. For example, if you compare prices before buying something, (1)_____.

Daily routines can also affect your expenses. If you buy meals every day, (2)_____ even if the food seems inexpensive. And if you keep buying things you don't really need, (3)_____, and the items will end up unused.

Saving also plays an important role in financial stability. If you save a small amount every month, (4)_____, especially when unexpected problems happen.

Finally, planning matters. If you use a credit card without checking your balance, (5)_____, and it may take months to repay.

- A. you will get into debt.
- B. you will quickly run out of money.
- C. you will save a lot of money over time.
- D. you will have enough for emergencies.
- E. you will spend much more than cooking at home.
