Organizing Information with Diagrams

Nursing and Community Medicine

Activity 1 – Concept Map from a Text

Read the text:

Text A – Community Nursing Care

Community nurses work in local clinics and homes. Their main role is to promote health and prevent disease. They give health education, monitor chronic patients, and support families. Community nursing improves quality of life.

Task

Complete the **concept map** based on the text.

Concept Map (fill in the information):

Main Topic: _____

Supporting Ideas:

1. _____
2. _____
3. _____

LIVEWORKSHEETS

Activity 2 – Diagram of a Process

📖 **Read the text:**

Text B – Patient Care in Community Clinics

When a patient arrives at a community clinic, a nurse checks vital signs. After that, the nurse asks about symptoms. Then, the patient receives basic care or health education. Finally, the nurse plans follow-up visits.

📝 **Task**

Organize the information into a **diagram** (correct order).

Steps (write numbers 1–4):

☐ Patient receives basic care or education

☐ Nurse checks vital signs

☐ Nurse plans follow-up visits

☐ Nurse asks about symptoms

Activity 3 – Concept Map with Key Words

📖 **Read the text:**

Text C – Health Education in the Community

Health education is important in community medicine. Nurses teach patients about hygiene, nutrition, and exercise. This education helps prevent diseases and improves community health.

📝 Task

Complete the **concept map** using **key words only**.

Main Idea: _____

Key Words:

- _____
- _____
- _____

Result: _____

Activity 4 – Identify the Best Diagram

📖 Read the text:

Text D – Roles of Nurses in Community Health

Community nurses assess patients, provide basic treatment, educate families, and promote healthy habits.

📝 Choose the correct diagram:

A)

Nurses → Hospitals → Surgery → Emergency

B)

Community Nurses → Assessment → Treatment → Education → Health Promotion

LIVEWORKSHEETS

C)

Patients → Doctors → Medication → Surgery

D)

Community → Problems → No care
