Hilary Lister was a brave woman from England. When she was young, she was active and full of energy. However, a serious (1) \_\_\_\_\_ affected her body. The illness slowly (2) \_\_\_\_\_ through her nervous system, and soon her arms and legs, or (3) \_\_\_\_\_, became weak. Later, she became completely (4) \_\_\_\_\_ and had to use a (5) \_\_\_\_\_ to move around.

Many people thought her life was (6) \_\_\_\_\_, but Hilary never gave up. She stayed (7) \_\_\_\_\_ and believed in herself. One day, she decided to (8) \_\_\_\_\_ sailing. It was her biggest (9) \_\_\_\_\_ to sail alone across the sea.

Because she could not use her hands, Hilary worked with engineers to (10) \_\_\_\_\_ a special system. This system helped her (11) \_\_\_\_\_ the boat. It worked by using her mouth – when she (12) \_\_\_\_\_, the boat moved one way, and when she (13) \_\_\_\_\_, it moved another way.

Sailing was not easy. Strong winds often blows across the sea, and Hilary felt (14) \_\_\_\_\_ after long days on the boat. Still, she never stopped. Her story teaches us that physical limits cannot stop a strong mind.
