Online shopping is the process of buying goods and services without going to store. it has been known and become popular now. Some of the famous online shops are like Tokopedia, Lazada, OLX, Bukalapak and so on. We can go to online store easily by searching it in the internet. We just type the website of the online shop and type the goods what we want to buy. Yet, there are some advantages and disadvantages of online shopping.

The advantages are consumers can buy many variety of items in a online store such as books, clothes, gadgets, toys, properties, etc. Without going to a Departement Store. They just need to go to ATM or Bank to transfer the money and wait for 2 or 3 days to have the goods at our place. Besides, it is simple and save time because we can order the things everywhere and any time. The most attractive advantages of shopping online is the price much cheaper than conventional one.

The negative sides of online shopping are the goods can't be tried by us directly. Consequently, sometime it does not meet what we want like the color and the size. In addition, sometimes the quality of goods are not suitable with photo displayed on online store website. The similarity of the goods and photos which we see on the monitor is not 100% the same. In common, the originality of the goods is only 75-90%. it will make the buyer feels disappointed when they find the products does not meet their expectation. Yet, some buyers feel satisfied with the goods they receive.
