Read the text. Answer the questions. Write ONE, TWO, or THREE words.

A Visit to the Old Castle

Last spring, a family went to the countryside to visit a famous castle. The castle is an important place with an interesting history, and many people believe it was built in the sixteenth century. In the morning, the weather was foggy, so everyone walked slowly around the castle.

There were lots of people visiting that day, including families and school groups. Inside the castle, they saw paintings by an artist and learned about life long ago.

After one minute, a waiter brought them food at a small café near the castle.

Later, the family talked about whales and islands, and everyone enjoyed the trip very much.

Questions
