## THE AGE SURVEY

Good morning, class! Today we're doing an age survey and a numbers challenge.

My name is Mr. Reed. I'm thirty-six years old. First question: How old are you?

Lina: I'm eleven years old.

Hugo: I'm twelve years old.

Sara: I'm eleven years old, too.

Adam: I'm thirteen years old.

Nora: I'm twelve years old.

Great! So we have two students who are eleven, two students who are twelve, and one student who is thirteen.

Now, more numbers: Our classroom is Room 18. The school bus number is Bus 7.

Finally, quick question: What's your age again?

Lina is 11, Hugo is 12, Sara is 11, Adam is 13, and Nora is 12.
