

# Cheetah

## Texts for Reading.

Read and answer the questions.

Cheetahs are a type of large cat. They're the fastest land animal on earth!

Cheetahs live in Africa. They live in open grasslands called savannas.

Cheetahs are covered with black dots. These spots help them hide in the grass.

Cheetahs mostly eat small animals like hares but they also eat big animals like antelopes!

Their legs are very powerful. Cheetahs are also thin, with small heads.

Cheetahs can only run for about a minute, then they need to rest. Cheetahs can see very far. They spot their prey and sneak closer . . . Once they're close enough, they run—fast!
