**2. Read, choose the words from the box and fill in the blanks, then draw lines.**

Tom: Hey, did you try swimming and rock climbing during sporty days?

Bill: Yeah, I did. I think rock climbing is more exciting than swimming.

Tom: Really? Swimming is more exciting because you can splash around in the water.

Bill: Well, that's true, but rock climbing is more fun because you can climb up high and see the view from the top.

Tom: Hmm, I agree. But rock climbing is more difficult than swimming.

Bill: I'm not so sure about that. Swimming can be difficult when you're trying to swim a long distance.

Tom: Yeah, you're right. But rock climbing makes you thirstier than swimming.

Bill: That's true. I always get really thirsty after climbing for a while. But swimming can be pretty tiring, too.

Tom: Yeah, but swimming is easier than rock climbing.

Bill: Well, they're both difficult in their own ways, but I agree. Rock climbing can be frightening, too.

Tom: Yeah, I'm really afraid of heights. I can't climb really high.

Bill: That's okay, it's not for everyone. But you'll be surprised how much you enjoy it if you give it a try.

Tom: Maybe. But right now, I'm just really hungry. Let's get some snacks!
