Letter from the Weather Camp

Hi everybody,

You asked me _____ the scouts here at the camp. Well, they come_____ different cities, but we all have one thing _____ common : we are crazy _____ the weather and we aim _____ becoming professional meteorologists.

We have already got acquainted _____ each other, and I am happy we get _____ well _____ each other. We carry _____ a lot of experiments with wind sensors and we do different tasks _____ groups.

Naturally, we depend _____ each other. We can cope _____ the difficult tasks only if we work together, if we can rely _____ each other, and if we lend each other a helping hand.

We work well as a team, because we are fond _____ nature and good _____ different things. We have different skills, and only the changing climate doesn't leave us cold.

I like it here at the weather station, but I miss you too.

Love,

Nelly
