Task 2: Choose the best answers for questions below:

- 1. Question 1: At the beginning, the speakers mention that although animals like bees look busy, the surprising truth is that they _____.**
 - A. always move from flower to flower.
 - B. spend most of their time doing nothing.
 - C. work harder when the cameras are off.
 - D. sleep for 20 hours a day like lions.

- 2. Question 2: According to the study on Rock Ants, why are about half of the ants in a colony inactive (not working)?**
 - A. Because they are lazy and bored.
 - B. Because they are "reserve ants" waiting to help in emergencies.
 - C. Because there is not enough food for them to find.
 - D. Because they are the leaders of the society.

- 3. Question 3: What does Dr. Sandi Mann believe about "boredom"?**
 - A. It is dangerous for our mental health.
 - B. It prevents us from being productive.
 - C. It is the "mother of invention" and helps us be creative.
 - D. It makes us feel tired and exhausted.

- 4. Question 4: Why is it harder for modern humans to "switch off" (relax) compared to the past?**
 - A. Because of constant stimulation from phones and scrolling.
 - B. Because we have to work harder to find food.
 - C. Because we are naturally more industrious than ants.
 - D. Because we don't like being alone.

- 5. Question 5: What happens to the three-toed sloth because it moves so slowly?**
 - A. It becomes easy prey for lions.
 - B. It sleeps for 20 hours a day.
 - C. It stops eating completely.
 - D. Algae (plants) grow on its fur.
