

DIGGORY BONES

1 Who's older: Sir Doug or Diggory Bones?

2 How long is the model dinosaur?

3 What are Diggory's students learning about?

4 What did The Rosetta Stone help us to do?

5 Where was Diggory's computer?

6 Who's Emily?

They're learning about The Rosetta Stone.

Sir Doug is older than Diggory.

She's Diggory's daughter.

It was in his classroom.

It's almost 30 metres long.

It helped us to understand ancient languages.

Read and write.

Egyptian hieroglyphics were one of the first kinds of writing, but modern people couldn't understand them. Ancient people wrote important things on The Rosetta Stone in three different languages.

In 1822 a very clever man called Jean-François Champollion used two of the languages to understand the third, the Egyptian hieroglyphics. The Rosetta Stone helped us to understand the past better.
