STUDENT WORKSHEET

Subject: English

Topic: Discussion Text

Grade/Semester: XII / 2

Part 1: Analyzing Language Features

Read the following text carefully!

The Pros and Cons of Artificial Intelligence in Education

The rapid development of Artificial Intelligence (AI) has sparked a heated debate in the field of education. While some educators embrace AI as a revolutionary tool, others express concerns about its potential negative impacts on student learning.

On the positive side, AI-powered tools can provide personalized learning experiences. For instance, AI platforms can adapt to a student's pace, offering extra practice where needed. Furthermore, AI can assist teachers by automating administrative tasks, such as grading multiple-choice tests, which allows them to focus more on teaching.

On the other hand, critics argue that over-reliance on AI may hinder critical thinking skills. If students use AI to generate essays or solve math problems without effort, they might not truly grasp the material. Moreover, there are concerns regarding data privacy and the loss of human interaction in the classroom, which is vital for social development.

In conclusion, while AI offers significant benefits for efficiency and personalization, its implementation must be carefully monitored. Schools should find a balance between utilizing technology and maintaining essential human-led instruction.

Task A: Language Features Analysis

Find and write down the examples of these language features from the text above!

Language Feature	Examples from the Text
Generic Participant (General subjects)	
Contrastive Conjunctions (Connecting opposing ideas)	

LIVEWORKSHEETS

Additive Conjunctions (Adding information)	
Modalities (Words showing possibility/necessity)	
Mental Processes (Verbs of thinking/feeling)	

Task B: Essay Questions

Answer the following questions based on the text!

1. What is the main issue discussed in the text?

2. Mention two benefits of AI in education mentioned by the author.

3. Why do some people worry about the use of AI in schools?

4. "On the other hand, critics argue that **over-reliance** on AI..." What does the underlined word mean?

5. What is the author's recommendation regarding AI in education?

Part 2: Completing the Discussion Text

Instruction: The following text is incomplete. Please complete the **Arguments For** and **Arguments Against** sections. Ensure you use appropriate **conjunctions** (e.g., *However, Furthermore, On the contrary, In addition*).

Topic: Should Mobile Phones Be Banned in Schools?

Issue:

The use of mobile phones in schools has become a controversial issue. Some schools allow students to bring them for safety, while others strictly ban them to maintain focus.

Arguments For (Pro):

Arguments Against (Contra):

Conclusion:

In summary, whether or not to ban phones depends on how the school manages their use. A clear policy is needed to ensure phones are used for education rather than distraction.
