Reading

2. Read the text and mark the sentences as Right or Wrong.

We are in Social Networks

Social networks have become very popular recently. Almost everybody has an account in one or another social network. The most popular of them in the world is Facebook. I use it, too. On my page in Facebook, you can see my name, my photo and some information about my likes and hobbies. I don't share any personal information such as my address or phone number. I know it's not safe. The number of my virtual friends is not very big. I share my photos in Facebook but I let only my friends see them. As for me, I study painting at the art school. So, my friends from the art school share our works there and follow each other. I think it's very interesting. Social networks are a very good thing if you don't forget about safety.

- 1) Social networks have become very popular recently. _____
- 2) The pupil uses Instagram. _____
- 3) He shares his personal information such as his address or phone number. _____
