

Name: _____ Date: _____

Properties of Two-Dimensional Figures

Identify and draw all the lines of symmetry present on the two-dimensional figures.

1.

2.

3.

4.

Skills Quiz

5.

Classify each triangle by its angles.

6.

7.

Draw an angle that matches the characteristics listed.

- 8.
- Greater than 65°
 - Acute angle
- 9.
- Less than 115°
 - Obtuse angle
- 10.
- Obtuse angle
 - Greater than 160°

Draw a shape that matches the characteristics listed.

- 11.
- Polygon
 - 4 sides
 - 2 sets of perpendicular sides
- 12.
- Polygon
 - 5 sides
 - 1 set of parallel sides

Skills Quiz

- 13.
- Polygon
 - 3 sides
 - 3 acute angles
- 14.
- A letter of the alphabet
 - 2 lines of symmetry
- 15.
- Polygon
 - 4 sides
 - 1 set of parallel sides
