5. It was a cold and ..... **(f s t y r o)** day in the Snowy Mountains. The grass was white with frost.

III. Read about Australia. Choose the correct answers.

Australia is a large country with many different natural places. In the east of Australia, there is a long mountain range called the Great Dividing Range. These mountains are famous for their great height, reaching high into the clouds. Many rivers start from this mountain range.

Australia is also famous for its beautiful coral reef. The Great Barrier Reef is the largest coral reef in the world. It has a great length and width, and it is home to many sea animals. The water around the reef has different **depths**. Some places are shallow, and some are very deep.

In the north of Australia, there is a tropical rainforest. This rainforest is hot and wet all year round. It is full of tall trees and animals. The rainforest is not very wide, but it is very long and important for nature.

0. What natural place is in the east of Australia?

A. A coral reef

B. A mountain range

C. A tropical rainforest

1. What word describes how tall the mountains are?

A. width

B. depth

C. height
