2 Match descriptions 1–6 with issues a)–h). There are two extra issues.

1 Even though we live in a developed country, there are still families who cannot afford to feed their children. Schools are providing free meals in these cases but we also need to look at their housing situation.

2 Several blogs and websites have been blocked and people who want to make their voice heard have to use illegal means. There have also been arrests of those who openly criticised the government.

3 Security has been increased in airports, stations and public buildings after the recent events and the government has called on citizens to immediately report anything suspicious they might see.

4 The project involves creating a filter which can be manufactured cheaply, providing a sustainable solution to the problem of diseases caused by bacteria in the untreated water supply.

5 This crime affects everyone. If the authorities don't have money to provide essential services, then we all suffer and it is unfair that some people cheat the system.

6 Since the factory closed, the job situation has become critical in the area. Many young people are leaving to find work in other places and those who cannot because they have family commitments are struggling to make ends meet.
