VII. Read the following passage and choose the correct answer to each question. (1 p)

Gravity is the force that pulls objects towards the earth. There is a story that Sir Isaac Newton discovered gravity one day when he was sitting under a tree. An apple fell from the tree and hit Newton on the head. He realized gravity was the force that kept us on the ground. He also discovered it kept the moon close to the earth. The story of the apple is probably not true. However, it is a good example of how gravity affects things.

Newton was a genius. Unfortunately, people of his time were not ready for his ideas. They were critical of his discoveries. Newton was afraid to publish his findings. They sat on his shelf for over twenty years. Finally, in 1687, his first book was published. Today, it is considered one of the greatest works in the history of science.

36. *The story of the falling apple describes how Newton might have discovered _____.*

- A. the moon B. apples C. gravity D. the earth

37. *Why does the author mention the story of the apple?*
