INSTRUCTIONS

1. Observe the picture of the ecosystem.
2. Find 2 Living Things and 2 Non-Living Things.
3. Write the names of the objects in the "Object" column.
4. Give a check (✓) in the correct box.
5. Write the reason in the "Because" column.

Can you find 2 living things and 2 non-living things around the pond?

Object	Living Thing	Not Living Thing	Because
Frog	✓		Frog grow, need water, air and food, make waste and can sense the world
