- Question 18.** A. that can impact one's life in many ways.
B. it can impact one's life in many ways.
C. who can impact one's life in many ways.
D. can impact one's life in many ways.

- Question 19.** A. A fulfilling career should provide financial security.
B. A successful career requires hard work and dedication.
C. Your career should align with your passions and values.
D. It is important to choose a career that is in high demand.

- Question 20.** A. make informed career decisions.
B. makes informed career decisions.

- C. making informed career decisions.
- D. made informed career decisions.

- Question 21.** A. The job market is stable and predictable.
 B. The job market is constantly changing.
 C. It is important to choose a career that is recession-proof.
 D. Most jobs require specialized skills.

- Question 22.** A. Networking is not important for career success.
 B. It is important to focus on one's own strengths and weaknesses.
 C. Lifelong learning is essential for career advancement.
 D. It is important to choose a career that offers job security.

Traveling and exploring new places is an exciting way to experience different cultures and expand one's horizons. Whether it's a short trip to a neighbouring town or a long journey to a foreign country, stepping out into the world offers numerous benefits. It allows individuals to gain new perspectives, meet diverse people, and create lasting memories. Additionally, traveling can enhance personal growth and provide a sense of adventure and fulfillment.

One of the key advantages of traveling is the opportunity to learn about different cultures. By *immersing* oneself in a new environment, travellers can gain a deeper understanding of local customs, traditions, and lifestyles. This cultural exchange fosters mutual respect and appreciation among people from different backgrounds. Moreover, experiencing different cultures can challenge preconceptions and broaden one's worldview.

Traveling also promotes personal development. Facing unfamiliar situations and overcoming challenges can boost confidence and adaptability. Travelers often find *themselves navigating* new cities, trying unfamiliar foods, and communicating in foreign languages. These experiences can enhance problem-solving skills and resilience. Furthermore, the sense of accomplishment from successfully managing a trip can lead to increased self-esteem and a greater sense of independence.

Another benefit of traveling is the chance to disconnect from the routine of everyday life. Exploring new places provides a break from the usual responsibilities and stresses. This can be refreshing and rejuvenating, allowing individuals to return home with a renewed sense of energy and perspective. Travel can also foster creativity by exposing individuals to new sights, sounds, and ideas.

Despite its benefits, traveling can also present challenges. Planning a trip requires time and effort, and unexpected situations can arise. However, these challenges can be viewed as opportunities for growth and learning. With careful planning and a positive mindset, the rewards of traveling far outweigh the difficulties.

Question 23. Which of the following is NOT mentioned as a benefit of traveling?

- A. Gaining new perspectives
- B. Meeting diverse people
- C. Learning to drive
- D. Enhancing personal growth

Question 24. The word "*immersing*" in paragraph 2 is closest in meaning to:

- A. avoiding
- B. submerging
- C. engaging
- D. detaching

Question 25. The word "*themselves*" in paragraph 3 refers to:

- A. traveling
- B. cities
- C. cultures
- D. travellers

Question 26. The word "*navigating*" in paragraph 3 could be best replaced by:

- A. exploring
- B. constructing
- C. ignoring
- D. settling

Question 27. Which of the following best paraphrases the underlined sentence in paragraph 4?

- A. Traveling always causes stress and fatigue.
- B. Exploring new places helps one feel refreshed.
- C. Travel eliminates all responsibilities.
- D. Travel makes daily life monotonous.

Question 28. Which of the following is TRUE according to the passage?

- A. Traveling never presents any challenges.
- B. Planning a trip is always easy and quick.
- C. Travel fosters creativity by exposing individuals to new experiences.
- D. Travelers should avoid unfamiliar foods and situations.

Question 29. In which paragraph does the writer mention the role of cultural exchange in fostering mutual respect?

- A. Paragraph 1
- B. Paragraph 2
- C. Paragraph 3
- D. Paragraph 4

Question 30. In which paragraph does the writer discuss the personal development benefits of traveling?

- A. Paragraph 1
- B. Paragraph 2
- C. Paragraph 3
- D. Paragraph 4

[I] Renewable energy sources, such as solar, wind, and hydroelectric power, have gained global popularity as a sustainable alternative to fossil fuels. [II] Unlike coal and oil, renewable energy generates electricity without releasing harmful emissions, making *it* a cleaner option for the environment (Jacobson et al., 2017). [III] However, despite the advantages of renewable energy, there are still notable challenges that need to be addressed for it to fully replace traditional energy sources (Ell Abban et al., 2014). [IV]

One major advantage of renewable energy is its sustainability. Renewable resources, unlike fossil fuels, are naturally replenished and do not deplete over time. For instance, solar power harnesses energy from sunlight, which is *virtually endless*. In addition, renewable energy contributes to reducing greenhouse gas emissions, which helps combat climate change. Many

countries are increasingly investing in renewable technologies to decrease their carbon footprint and meet international climate goals.

However, renewable energy has certain limitations. One significant issue is its *intermittent* nature; for example, solar and wind power depend on weather conditions, making it difficult to generate a consistent power supply. This variability can disrupt the energy grid, which relies on a steady supply of electricity to meet demand. Another challenge is the high initial cost of setting up renewable energy facilities. Although prices have decreased in recent years, installing solar panels or wind turbines still requires substantial upfront investment (IRENA, 2019).

Despite these challenges, advancements in technology are gradually making renewable energy more efficient and accessible. Improved energy storage systems, such as batteries, allow excess power generated during favourable conditions to be stored and used later, ensuring a more reliable energy supply. As technology and infrastructure improve, renewable energy may eventually,

Question 31. Where in paragraph 1 does the following sentence best fit?

These sources of energy have numerous environmental and economic benefits.

- A. [I] B. [II] C. [III] D. [IV]

Question 32. The phrase "*virtually endless*" in paragraph 2 could be best replaced by _____.

- A. limited B. infinite C. renewable D. temporary

Question 33. The word "*it*" in paragraph 1 refers to _____.

- A. fossil fuels B. the environment C. renewable energy D. electricity

Question 34. According to paragraph 2, which of the following is NOT an advantage of renewable energy?

- A. Reducing greenhouse gas emissions B. Decreasing dependency on fossil fuels
C. Maintaining a steady energy supply D. Contributing to climate change goals

Question 35. Which of the following best summarizes paragraph 3?

- A. Renewable energy can fully replace fossil fuels without any major challenges.
B. Renewable energy is limited by inconsistent supply and high installation costs.
C. Renewable energy is currently too expensive to implement globally.
D. Renewable energy sources are reliable and cost-effective for all countries.

Question 36. The word "*intermittent*" in paragraph 3 is CLOSEST in meaning to _____.

- A. irregular B. constant C. continuous D. beneficial

Question 37. Which of the following is TRUE according to the passage?

- A. Renewable energy produces harmful emissions like fossil fuels.
B. Solar power is a reliable energy source regardless of weather conditions.
C. Renewable energy is increasingly viable thanks to technological advances.
D. Fossil fuels are a more sustainable energy source than renewable energy.

Question 38. Which of the following best paraphrases the underlined sentence in paragraph 4?

- A. Technology makes it harder to store energy produced during unfavorable conditions.
B. Technological improvements enhance the reliability and accessibility of renewable energy.
C. Technological advancements increase the cost and complexity of renewable energy.
D. Technology is not crucial for the global adoption of renewable energy.

Question 39. Which of the following can be inferred from the passage?

- A. Fossil fuels will remain the primary energy source indefinitely.
B. Renewable energy is unlikely to become widely adopted due to its limitations.
C. With better storage solutions, renewable energy could become a consistent power source.
D. Renewable energy is currently more economical than fossil fuels for all applications.

Question 40. Which of the following best summarizes the passage?

- A. Renewable energy is a sustainable alternative to fossil fuels with benefits for the environment, though it faces challenges like inconsistency and setup costs.
B. Renewable energy is replacing fossil fuels rapidly with no significant challenges.
C. Renewable energy sources are only useful in certain climates where resources are available.
D. The environmental impact of renewable energy is negligible, and it is readily available.
