## My Eco-Friendly Journey

In the last few years, I have made a few small changes to my lifestyle to help the environment. If you are interested in doing the same, here are some tips.

Only a few years ago, when I was in the supermarket, I **bought** <sup>1</sup> \_\_\_\_\_ all my food in plastic bags. In fact, I often **chose** <sup>2</sup> \_\_\_\_\_ ready-made meals in the most attractive packaging. Once, I remember that I **took** <sup>3</sup> \_\_\_\_\_ home four pieces of fruit in four separate plastic bags. Today, I never use plastic bags. This is my first tip: cut down on plastic bags.

Back then, I **didn't pay** <sup>4</sup> \_\_\_\_\_ any attention to being eco-friendly. Now, I know that it is quite an easy thing to do. When I was younger, I **wasted** <sup>5</sup> \_\_\_\_\_ a lot of water. I **had** <sup>6</sup> \_\_\_\_\_ long showers, and I **didn't reuse** <sup>7</sup> \_\_\_\_\_ water that I cooked with. One day, I **left** <sup>8</sup> \_\_\_\_\_ the tap running in the bathroom all morning while I was at work. Nowadays, I'm very careful with water and I try to only use what I need.

So, this is my story and my journey. At one time, I **was** <sup>9</sup> \_\_\_\_\_ wasteful, and I **didn't think** <sup>10</sup> \_\_\_\_\_ about reducing plastic waste or saving water. Today, I think differently.
