Everyone in my family has a passion for music or sport. My aunt is \_\_\_\_\_ professional musician; she plays \_\_\_\_\_ violin in a famous orchestra, and in her free time, she teaches my sister how to play \_\_\_\_\_ flute. They practice together every evening, and sometimes my sister plays \_\_\_\_\_ piano for us as well.

My brother, on the other hand, is not into instruments. He is \_\_\_\_\_ great athlete and plays \_\_\_\_\_ basketball for his university team. During the summer, we all go to the park to play \_\_\_\_\_ tennis or \_\_\_\_\_ volleyball. My father prefers more quiet activities, so he often plays \_\_\_\_\_ chess with our neighbor.

Last year, my mother started a new hobby. When she was in \_\_\_\_\_ Italy, she learned how to play \_\_\_\_\_ golf. Now, she goes to the club every Sunday to play \_\_\_\_\_ golf with her friends. As for me, I love football, but I also want to learn how to play \_\_\_\_\_ saxophone someday.
