Nowadays schools focus on teaching their students academic knowledge but they don't teach them any life _____ like money management. While teenagers live at home they _____ pocket money or sometimes they get a _____. It should be easy for them to save most of the money because they don't need to pay _____ (like electricity or gas). They just need to buy _____ they might need for school or for their personal care. If schools taught teenagers how to open a _____ and set a personal _____, it would be easier for them to make the right _____ at the time of spending their money.

Complete the sentences with the correct phrasal verb.

1. Anna is sad. Apparently, she's _____ with her sister over a silly argument.
2. Shall we _____ with our work? I want to finish before six.
