I. Read the text. Choose the best answer for each question:

David Bowie

- A. David Robert Jones (8 January 1947 – 10 January 2016), known professionally as David Bowie, was an English singer, songwriter and actor. He was a leading figure in popular music for over five decades, acclaimed by critics and other musicians for his innovative work. His career was marked by reinvention and visual presentation, his music and stagecraft significantly influencing popular music.
- B. During his lifetime, his record sales, estimated at 140 million albums worldwide, made him one of the world's best-selling music artists. In the UK, he was awarded nine platinum album certifications, eleven gold and eight silver, releasing eleven number-one albums. In the US, he received five platinum and nine gold certifications.
- C. Born in Brixton, South London, Bowie developed an interest in music as a child, eventually studying at, music and design before embarking on a professional career as a musician in 1963. *Space Oddity* became his first top-five entry on the UK Singles Chart after its release in July 1969.
- D. After a period of experimentation, he re-emerged in 1972 during the glam rock era with his flamboyant and androgynous alter ego Ziggy Stardust. The character was spearheaded by the success of his single *Starman* and album *The Rise and Fall of Ziggy Stardust and the Spiders from Mars*, which won him widespread popularity. In 1975, Bowie's style shifted radically towards a sound he characterized as "plastic soul", initially alienating many of his UK devotees but garnering him his first major US crossover success with the number-one single *Fame* and the album *Young Americans*.

E. In 1976, Bowie starred in the **cult** film *The Man Who Fell to Earth*, directed by Nicolas Roeg, and released *Station to Station*. The following year, he furthered confounded musical expectations with the electronic-inflected album *Low* (1977), the first of three collaborations with Brian Eno that would come to be known as *The Berlin trilogy*. *Heroes* (1977) and *Lodger* (1979) followed; each album reached the UK top five and received lasting critical praise.

F. After uneven commercial success in the late 1970s, Bowie had UK number ones with the 1980 single *Ashes to Ashes*, **its** parent album *Scary Monsters (And Super Creeps)*, and *Under Pressure*, a 1981 collaboration with *Queen*. He then reached his commercial peak in 1983 with *Let's Dance*, with its title track topping both UK and US charts. Throughout the 1990s and 2000s, Bowie continued to experiment with musical styles, including industrial and jungle.

G. He also continued acting; his roles included Major Cellier in *Merry Christmas, Mr Lawrence* (1983), the Goblin King Jareth in *Labyrinth* (1986), Pontius Pilate in *The Last Temptation of Christ* (1988), and Nikola Tesla in *The Prestige* (2006), among other film and television appearances and cameos. He stopped concert touring after 2004 and his last live performance was at a charity event in 2006. In 2013, Bowie returned from a decade-long recording **hiatus** with the release of *The Next Day*. He remained musically active until he died of liver cancer two days after the release of his album, *Blackstar* (2016).
