## Helpful Inventions

Scientists work hard to make new things. These inventions help people every day. The washing machine is a very useful machine. Washing machines help people clean their clothes quickly. Another great invention is the refrigerator. Refrigerators help us keep our food cold and fresh for a long time.

Today, many students use the internet on their computers. The internet helps us find information for school projects. Some simple inventions, like clocks, are also important. Clocks help us tell the time so we are not late. Inventions are amazing because they help us live a better and easier life in many different ways.
